

Migration of OWB to Informatica

Project

Migration of OWB to Informatica

Client

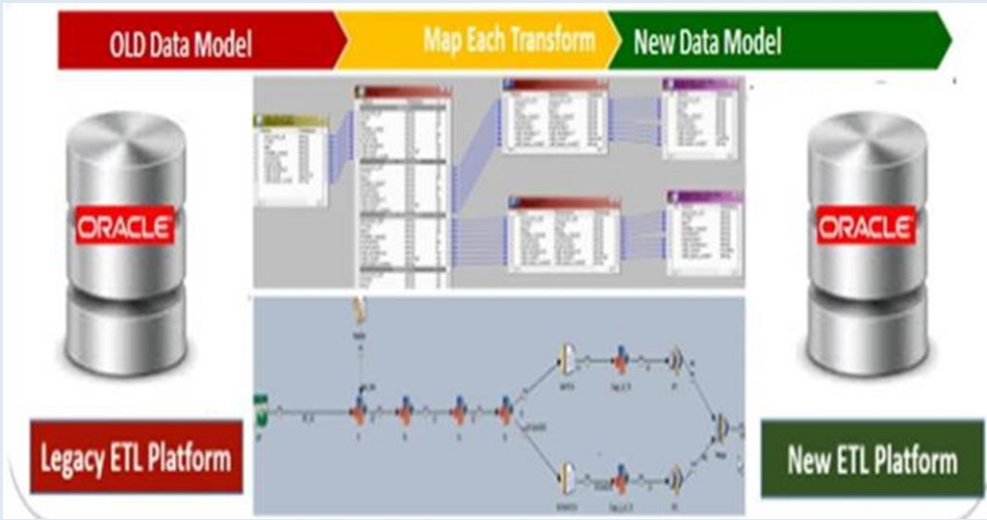

Leading software development organization

Summary

The leading service oriented organization approached us for implementation of Fixed Assets Analytics where number of Fixed Assets reports was developed into a single report, reducing their time in manual calculations and facilitating them to take decisions sooner.

Challenges

- The organization's management team for seeking answers that bestows their operational and business decision.
- FA Assets solutions delivered a number of summary and detailed reports pertaining to different areas of Fixed Assets.
- Instead of relying on manual calculations and legacy reports planning team can rely on BI reports and their loading and capacity calls are derived from system calculated, logically driven metrics and KPIs.

Solution

- Solution provides the report functionality across Fixed Asset Summary, CIP and Capitalized reports.
- This solution delivers almost 15 reports spread across all these business areas in the form of summary detailed representation of data.
- This project has introduced a seamless platform where users can perform all the data analysis for Asset Distribution, Retirement details of each asset.

Results

- 50% reduction in dependencies on legacy report.
- 30% re-utilization of resources.
